DETAILED ACTION

1. Applicant's amendment, filed 7/7/03, has been entered.
Claims 6, 12 and 53 have been amended.
Claims 55-57 have been added.

Claims 1-57 are pending.

REASONS FOR ALLOWANCE

- 2 The following is an Examiner's Statement of Reasons for Allowance:

Upon reconsideration of applicant's amended claims, filed 7/7/03, and the terminal disclaimer filed 7/28/03, the previous rejections have been obviated. The terminal disclaimer filed on 7/28/03, disclaiming the terminal portion of any patent granted on this application which would extend beyond the expiration date of U.S. Patent No. 6,162,432 has been reviewed and is accepted. The terminal disclaimer has been recorded.

As indicated previously and for the reasons and prosecution set forth in parent application USSN 08/466,465, now U.S. Patent No. 6,162,432, the instant claims appear to be free of the prior art.

Accordingly, the pending claims are deemed allowable.

3. As indicated previously, the oath or declaration is defective. A new oath or declaration in compliance with 37 CFR 1.67(a) identifying this application by application number and filing date is required. See MPEP §§ 602.01 and 602.02.

The oath or declaration is defective because:

It does not state that the person making the oath or declaration in a continuation-in-part application filed under the conditions specified in 35 U.S.C. 120 which discloses and claims subject matter in addition to that disclosed in the prior copending application, acknowledges the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application.

Applicant's comments, filed 7/7/03, have been fully considered but are not found convincing essentially for the reasons of record. It is not the issue of an absence of the application serial number and filing date that renders the present oath defective. Rather, the oath is defective in the absence of "acknowledging the duty to disclose to the Office all information known to the person to be material to patentability as defined in 37 CFR 1.56 which occurred between the filing date of the prior application and the national or PCT international filing date of the continuation-in-part application." Given that this CIP duty to disclose requirement was necessary at the time the oath was filed and was not indicated on the original oath in the instant application, the oath is defective for the reasons of record reiterated herein for applicant's convenience. It is noted that the CIP duty to disclose has been incorporated into 37 CFR 1.56 effective on November 7, 2000. See 37 CFR 1.56.

4. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably **accompany** the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
